Top Level Headings In Your Research Paper Should Be

There are five levels of heading in APA Style. Level 1 is the highest or main level of heading, Level 2 is a subheading of Level 1, Level 3 is a subheading of Level 2, and so on through Levels 4 and 5. The number of headings to use in a paper depends on the length and complexity of the work. If only one level of heading is needed, use Level 1. If two levels of heading are needed, use Levels 1 and 2. If three levels of heading are needed, use Levels 1, 2, and 3 (and so on).

First Level. Centered, with all major words capitalized. This is for the title of the paper, used at the start of the manuscript, and for any major chapters (this will always be at the top of the...

what is a TOP level heading and a Second level heading ...

Headings communicate the organization of the content on the page. Web browsers, plug-ins, and assistive technologies can use them to provide in-page navigation. Heading ranks. Nest headings by their rank (or level). The most important heading has the rank 1 (`<h1>`), the least important heading rank 6 (`<h6>`). Headings with an equal or higher rank start a new section, headings with a lower rank start new subsections that are part of the higher ranked section.

large section into more scannable chunks.

Headings - Microsoft Style Guide | Microsoft Docs

Apply different heading styles to your document for each level of heading Click on the "Multilevel List" button in the "Paragraph" section of the "Home" tab Select one of the list styles that refers to headings

How to Use Heading Styles in Microsoft Word

In total, there are six levels of headings you can use to structure sections of content on the page (<h1> through to <h6>). Heading 1 is the most important and is the heading for the page, this typically corresponds to the title of the page. It gives users an indication of what the page is about - you should have a single Heading 1 on each page.

How to structure headings for web accessibility | Nomensa

In WordPress, headings are ordered in ranks (or levels). The highest rank is H1, and that is the title of your post or page. In the rest of the text, you use H2 - H6 headings. With them, you indicate the importance of each section and how it relates to the rest of the text.

One H1 heading per post or page: that'll do | Yoast

The sections named above are considered major elements of your paper, so these sections should be treated as the highest level of headings. Major levels (highest level) titles in your APA title are centered on your paper. They should be formatted in boldface and the important words of the heading should be capitalized.

Formatting APA Headings and Subheadings

Major (Level 1) Headings: For chapter titles, appendices, and front matter sections. These always begin on a new page. A chapter title, along with the prefix " Chapter N " - where N is the number of the chapter - should be centered and placed about 1 1/2 inches down from the top of the page.
