The MCCEE is one of the first of three exams for medical licensing in Canada. This exam tests the student's basic clinical knowledge and diagnostic skills. This series of review books aims to provide a thorough overview of the information that is most commonly tested on this exam. Unlike many other review materials, it focuses on providing the student with an understanding of the concepts, the diagnosis, and treatment, rather than trying to memorize an overwhelming amount of information that is usually not asked in the standard questions. Also available at www.mcceereview.com

Ultimate Questions for the MCCEE is a must have for every student. This book provides detailed answers and concepts to questions most commonly tested on the MCCEE. These questions are designed to be more challenging than the official MCCEE exam so that students are better prepared and are more likely to get a higher score. Also available at www.mcceereview.com

Essentials for the Canadian Medical Licensing Exam reviews key concepts necessary for Canadian medical students and international medical graduates preparing to write the Medical Council of Canada Qualifying Exam (MCCQE), part 1. --

This text presents the most comprehensive resource available that focuses on exam preparation for the MCCQE Part 1 and the USMLE Step 2. Written in a concise, easy-to-read style, this annually revised text includes relevant clinical information on 29 medical subspecialties.

A Simon & Schuster eBook. Simon & Schuster has a great book for every reader.

In its 114th year, Billboard remains the world's premier weekly music publication and a diverse digital, events, brand, content and data licensing platform. Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music, video, gaming, media, digital and mobile entertainment issues and trends.

Free limited-time access to the Crush Step 2 Question Bank on USMLE Consult plus discount for purchase. Trusted and recommended by thousands of top performing medical students

One of the critical challenges facing Africa is how to harness the potential of internal and international migration in the interests of development. The Southern African Migration Project (SAMP) is an international network of organizations founded in 1996 to promote awareness of migration-development linkages in SADC. SAMP conducts applied research on migration and development issues, provides policy advice and expertise, offers training in migration policy and management, and conducts public education campaigns on migration-related issues. The Brain Drain of Health Professionals from Sub-Saharan Africa to Canada, No 2 in the African Migration and Development Series, attempts to answer the question "how" the brain drain can be reduced, acknowledging that it can best be done through concerted efforts from both sides -Sub-Saharan African countries and Canada.
