The phenomenon returns! Originally published in 1987, *The Book of Questions*, a New York Times bestseller, has been completely revised and updated to incorporate the myriad cultural shifts and hot-button issues of the past twenty-five years, making it current and even more appealing. This is a book for personal growth, a tool for deepening relationships, a lively conversation starter for the family dinner table, a fun way to pass the time in the car. It poses over 300 questions that invite people to explore the most fascinating of subjects: themselves and how they really feel about the world. The revised edition includes more than 100 all-new questions that delve into such topics as the disappearing border between man and machine—How would you react if you learned that a sad and beautiful poem that touched you deeply had been written by a computer? The challenges of being a parent—Would you completely rewrite your child ' s college-application essays if it would help him get into a better school? The never-endingly interesting topic of sex—Would you be willing to give up sex for a year if you knew it would give you a much deeper sense of peace than you now have? And of course the meaning of it all—If you were handed an envelope with the date of your death inside, and you knew you could do nothing to alter your fate, would you look? *The Book of Questions* may be the only publication that challenges—and even changes—the way you view the world, without offering a single opinion of its own.

Where does the story start? Marie-Louise Gay explains the creative process with typical fun and whimsy. Many children want to know where stories come from and how a book is made. Marie-Louise Gay's new picture book provides them with some delightfully inspiring answers in a fictional encounter between an author and some very curious children, who collaborate on writing and illustrating a story. Marie-Louise has scribbled, sketched, scrawled, doodled, penciled, collaged and painted the words and pictures of a story-within-a-story that show how brilliant ideas creep up on you when you least expect it and how words sometimes float out of nowhere asking to be written. *Any Questions?* presents a world inhabited by lost polar bears, soaring pterodactyls, talking trees and spotted snails, with cameo appearances by some of Marie-Louise's favorite characters — a world where kids can become part of the story and let their imaginations run wild... and just maybe they will be inspired to create stories of their own. At the end of the book, Marie-Louise provides answers to many of the questions children have asked her over the years, such as “Are you Stella?” “How did you learn to draw?” “Can your cat fly?” “How many books do you make in one day?” Correlates to the Common Core State Standards in English Language Arts: CCSS.ELA-LITERACY.RL.2.6 Acknowledge differences in the points of view of characters, including by speaking in a different voice for each character when reading dialogue aloud. CCSS.ELA-LITERACY.RL.3.1 Ask and answer questions to demonstrate understanding of a text, referring explicitly to the text as the basis for the answers.

The New York Public Library staff answers questions remarkable and preposterous, with illustrations by Barry Blitt. Have you've ever wondered if you can keep an octopus in a private home? Do you spend your time thinking about how much Napoleon's brain weighed? If so, *Peculiar Questions and Practical Answers* is the book for you. The New York Public Library has been fielding questions like these ever since it was founded in 1895. Of course, some of the questions have left the librarians scratching their heads... “In what occupations may one be barefooted?” “What time does a bluebird sing?” “What does it mean when you're being chased by an elephant?” “What kind of apple did Eve eat?” “How many neurotic people are there in the U.S.?” In *Peculiar Questions and Practical Answers*, the staff of the NYPL has dug through the archives to find thoughtful and often witty answers to over one hundred of the oddest, funniest, and most whimsical questions the library has received since it began record-keeping over seventy-five years ago. One of *The New Yorker's* best-known and beloved illustrators, Barry Blitt, has created watercolors that bring many of the questions hilariously to life in a book that answers, among others, the question “Does anyone have a copyright on the Bible?”

2018 Nautilus Book Awards Silver Winner What if you could unlock a better answer to your most vexing problem—in your workplace, community, or home life—just by changing the question? Talk to creative problem-solvers and they will often tell you, the key to their success is asking a different question. Take Debbie Sterling, the social entrepreneur who created *GoldieBlox*. The idea came when a friend complained about too few women in engineering and Sterling wondered aloud: “why are all the great building toys made for boys?” Or consider Nobel laureate Richard Thaler, who asked: “would it change economic theory if we stopped pretending people were rational?” Or listen to Jeff Bezos whose relentless approach to problem solving has fueled Amazon's exponential growth: “Getting the right question is key to getting the right answer.” Great questions like these have a catalytic quality—that is, they dissolve barriers to creative thinking and channel the pursuit of solutions into new, accelerated pathways. Often, the moment they are voiced, they have the paradoxical effect of being utterly surprising yet instantly obvious. For innovation and leadership guru Hal Gregersen, the power of questions has always been clear—but it took some years for the follow-on question to hit him: If so much depends on fresh questions, shouldn't we know more about how to arrive at them? That sent him on a research quest ultimately including over two hundred interviews with creative thinkers. *Questions Are the Answer* delivers the insights Gregersen gained about the conditions that give rise to catalytic questions—and breakthrough insights—and how anyone can create them.
