Drawing on extensive clinical and epidemiological evidence, as well as personal experience, Thomas Joiner provides the most coherent and persuasive explanation ever given of why and how people overcome life’s strongest instinct, self-preservation. He tests his theory against diverse facts about suicide rates among men and women; white and African-American men; anorexics, athletes, prostitutes, and physicians; members of cults, sports fans, and citizens of nations in crisis.

Drawing on extensive clinical and epidemiological evidence, as well as personal experience, Thomas Joiner provides the most coherent and persuasive explanation ever given of why and how people overcome life’s strongest instinct, self-preservation. He tests his theory against diverse facts about suicide rates among men and women; white and African-American men; anorexics, athletes, prostitutes, and physicians; members of cults, sports fans, and citizens of nations in crisis.

What Does Dead Mean? is a beautifully illustrated book that guides children gently through 17 of the ‘big’ questions they often ask about death and dying. Questions such as ‘Is being dead like sleeping?’, ‘Why do people have to die?’ and ‘Where do dead people go?’ are answered simply, truthfully and clearly to help adults explain to children what happens when someone dies. Prompts encourage children to explore the concepts by talking about, drawing or painting what they think or feel about the questions and answers. Suitable for children aged 4+, this is an ideal book for parents and carers to read with their children, as well as teachers, therapists and counsellors working with young children.

“ A straightforward treatment of the only existential issue that matters from the Christian perspective “ The author is a renowned preacher, esteemed homiletician, and well-published author In What Happens When We Die? Tom Long provides information about the promises and convictions of the Christian gospel concerning death and life after death. He surveys in simple terms the major themes surrounding death, dying, and hope for an afterlife.

In The Perversion of Virtue, suicide researcher Thomas Joiner explores the nature of murder-suicide and offers a unique new theory to explain this nearly unexplainable act: that ‘true’ murder-suicides always involve the wrongheaded invocation of one of four interpersonal virtues.

Gripping accounts of all known fatal mishaps in the most famous of the World’s Natural Wonders.

We need to get it in our heads that suicide is not easy, painless, cowardly, selfish, vengeful, selfmasterful, or rash; that it is not caused by breast augmentation, medicines, “slow” methods like smoking or anorexia, or, as some psychoanalysts thought, things like masturbation; that it is partly genetic and influenced by mental disorders, themselves often agonizing; and that it is preventable and treatable.

In an isolated mountain clinic, doctors work frantically to treat the body of Daniel Forrester, the shattered victim of a plane crash. Desperately trying to save his life, they place him in the latest medical machine. Strange things happen to Forrester after he is sealed into this amazingly sophisticated life support system. His heart stops. The machine brings him back to life. Each cardiac arrest seems the end ... but each time the machine brings him back. During these periods of apparent death, horrifying and unexplainable phenomena occur, and it soon becomes clear that what the machine is bringing back from the beyond is no longer Forrester ... Subtitled "An Unusual Ghost Story," Thomas Page's bestseller The Man Who Would Not Die (1981) is an inventive blend of classic horror fiction and medical science that returns to print at last to chill a new generation of readers. "An unusual, sly ghost story with a medical-technology premise . . . endearingly bizarre . . . entertaining." - Kirkus Reviews

Manhattan medium Thomas John has been hailed as “the Hollywood psychic with the highest batting average” by The Hollywood Reporter, and as a psychic medium with “an impressive connection that impresses even the most skeptical minds” by TheExaminer.com. Now he shares what he’s seen and heard on the Other Side. In this book, John shares with us fifteen fascinating stories of what happens when clients ask him to contact their dead friends and relatives. Included here are the story of a 30-something New Yorker who was unable to stop fantasizing about suicide until he conveys healing words from her dead fiancé; an account of an encounter with a grieving young woman in a drugstore;and the message he conveys from her dead six-year-old son; and a disturbing story of an unsolved murder case solved by information he received from the other side. Above all, this is a book filled with comfort, love, forgiveness, and hope. For Thomas John, death is not the end, it is just the beginning. Our friends and relatives are still with us. They care for us. They watch over us. And, in times of particular need, they offer us their help.

As the third Trial draws to a close, Thomas and some of his cohorts manage to escape from WICKED, their memories having been restored, only to face new dangers as WICKED claims to be trying to protect the human race from the deadly FLARE virus.
